RECTOR OF THE UNIVERSITY

Oksana Shumakova

Doctor of economic sciences,
Professor

Omsk State Agrarian University is a university with a century-old history, strong traditions, talented teachers and gifted students.

We are an industry university - part of the agro-industrial complex of the Russian Federation, we train personnel in the field of agriculture and everything related to it.

Omsk State Agrarian University is a place where everything is created for study, scientific research, creativity, a university that we love and which we are proud of.

Apply and study at the best university!
